NOW, THEREFORE, in consideration of the mutual agreement hereinafter contained, the receipt and sufficiency of which is hereby acknowledged, the parties agree that the Agreement shall be and hereby is amended as follows:

1) With regard to each trailer that is dropped off at any Home Depot facility in connection with Carrier providing Services under this Agreement, Home Depot may, at its discretion, when loading trailers dropped off by Carrier, insert GPS tracking devices for tracking the location of the trailer into boxes or cartons loaded by Home Depot.

Carrier acknowledges and agrees that its access to Drop Lots is limited to the areas and times necessary to perform its activities and the Services.

   (b) Carrier accepts and agrees that it shall perform all activities or Services on Drop Lots in compliance with all applicable federal, state and local laws and regulations, including, but not limited to having all required licenses, permits and insurance and complying with all required safety practices, including but not limited to, those posted by Home Depot.

(c) Carrier shall furnish, at its own expense and at its sole and exclusive risk of loss or damage, the equipment, supplies, and other materials used to perform any activities or Services on the Drop Lots. (d) Carrier accepts and agrees: (i) that Carrier enters the Drop Lots and performs its activities or Services thereon at its own risk; (ii) that Home Depot shall bear no liability to Carrier or third-parties, in any event, arising out of or related to performance of Carrier's activities or presence on the Drop Lots absent Home Depot's gross negligence or willful misconduct; (iii) that Home Depot shall bear no liability to Carrier or third-parties regarding the presence or absence of any safety features of the Drop Lots, including but not limited to, proper lighting, staffing with security personnel, gating, fencing, or recording of activity on the Drop Lots by Closed-Circuit Television or other electronic means; and (iv) Home Depot shall bear no liability whatsoever for special, indirect or consequential damages, regardless of foreseeability.

(e) Home Depot may issue and post rules or procedures in or around Drop Lots applicable to Carrier's activities on the Drop Lots. Carrier agrees that the Distribution Center Safety Compliance operating requirement, as outlined in the attached Exhibit B, shall, without limitation, govern Carrier's activities on the Drop Lot and Carrier agrees to comply with such requirements while on the Drop Lot.

(f) Carrier hereby grants Home Depot permission to access and use of Carrier's trailers while stored on Drop Lots for the purpose of moving the trailers into, within, or off of the Drop Lot, as required in Home Depot's sole discretion. Carrier shall not be responsible for damage to person or property arising out of Home Depot's access to Carrier's trailers in the Drop Lot.

(g) Carrier accepts and agrees to promptly notify Home Depot in the event Carrier is involved in or aware of any loss or damage to person or property caused, allegedly, caused, or in any way arising out of Carrier's performance of activities or Services on the Drop Lots.

APPLICATION OF GOVERNING RULES for *LTL Carrier (Continued)*

LIABILITY ON USED EQUIPMENT OR MACHINERY

For claim purposes, all used machinery or equipment will be considered released to a value not exceeding $5.00 per pound. This applies on commodities which are used, old, scrap or having value only for reclamation, salvage, reconditioning or reconstruction. Used items which have been reconditioned and not further used prior to shipment will not be considered used equipment.

ALTERNATE APPLICATION OF RATES AND CHARGES

In no case shall the charge for any shipment from and to the same points, via the same route or movement, be greater than the charges for a greater quantity of same commodity, subject to the same packing provisions, at the rate and weight applicable to such greater quantity of freight.

EXAMPLE:
In those instances where a shipment weighs 950 lbs., the applicable 500 pound LTL class rate with the applicable LTL discount (if any), will alternate with the 1,000 lb. LTL class rate with the applicable LTL discount (if any). That calculation which produces the lower charge will take precedence.

CUBIC CAPACITY AND DENSITY – MINIMUM CHARGE

This applies when a shipment of class 50 through 250 occupies 750 cubic feet or more, with an actual density of less than 4 pounds per cubic foot. For the purpose of determining cubic feet, any packaged shipping unit such as below will be considered 84 inches in height if the actual height is less than 84 inches:

- Pallets, skids or cartons banded or shrink wrapped into a single unit which are pyramided, rounded, or topped off; or
- Units which have an irregular shape on top (i.e. machines, etc.); or
- Units which are marked with instruction that no other freight is to be loaded on top.

Minimum shipment charge – Multiply total cubic feet, or portion thereof, by 8 lbs., then multiply the resultant weight by the class 100 rate using rates contained herein the agreement with applicable discount If the otherwise applicable charge is greater than the calculation in this item, the otherwise applicable charge will apply.

When cubic capacity/minimum density rule is applied the following documentation must be provided: Weight and Inspection inclusive of cube and density calculation per pallet and pictures

SCHEDULE B-1
EXCLUSIVE USE SERVICE

PURPOSE:

This Schedule shall serve as an agreement between LTL Carrier and Home Depot to cover situations where the carrier delivers a full truckload, as defined herein, to a Home Depot location due to Home Depot's transportation system assigning such load to Carrier ("Exclusive Use Service").

LOCATIONS:

The Home Depot Locations

PROCESS AND PRICING:

In the event Carrier provides Exclusive Use Service to Home Depot, Carrier shall promptly notify Home Depot of such full truckload and include the following documents: BOL, Exclusive Use form and pictures of freight. These details should be submitted via a ticket through Supplier Hub at supplierhub.homedepot.com. Select Transportation > LTL > Accessorial Approval. Home Depot will then review and approve that a full truckload was indeed delivered, using the conditions below and the required details received from the Carrier. Home Depot will then provide to Carrier the rate for such movement based on the Home Depot TL Matrix Rate average from the origin zip code to destination zip code. The Home Depot TL Matrix Rates will be reviewed every 90 days to ensure any market condition fluctuation is accounted for fairly, and these rates will be provided to you for your reference.

The same details that have been provided by the Carrier will be investigated further to determine why the TL shipment was tendered to an LTL carrier to make corrections and decrease the possibility of this happening again.

Full Truckload Shipments are defined as follows:

Any shipment to a single Home Depot destination which occupies **GREATER THAN** 24 linear feet **OR** more of trailer space or meets the below criteria:

Freight Class Range		Greater than
50	92.5	20,000 lbs.
100	125	15,000 lbs.
150	200	10,000 lbs.
250	500	5,000 lbs.

Gap Time (Outbound)	Carrier is expected to provide **1 day** or better Gap Time service to stores and **3 days** or better Gap Time service to DC's. Rural stores identified by THD will be given an additional **1 day** GAP Time depending on the mileage from the destination terminal to account for the extra transit.

On-Time Performance	Carrier is expected to provide **93.8%** or better on-time performance service. Carrier will need to be compliant on both transit time and gap on-time to be compliant on for on-time performance.
Communication	Carriers must notify the DC immediately of any delays that will prevent on-time delivery. The DC's customer service associates will communicate all delivery appointment reschedules, for whatever reason, to the store. As noted above for stores, Carrier may re-deliver a load according to the LTL delivery window.
On-call Personnel Required	Carrier(s) must provide customer service/operations contacts 24 hours per day, 7 days per week.
Responsiveness	Adjust fleet priorities to meet unexpected store/DC requirements.
