APPLICATION OF TARIFF

Except as otherwise specifically provided within, provisions named in this tariff will apply on direct interstate and intrastate via Southeastern, and interline shipments via Southeastern, and its partners or participating carriers.

SOUTHEASTERN FREIGHT LINES

ITEM 170 **Effective: March 1, 2021**

APPLICATION OF CLASSES
(Exceptions to NMFC 100 Series Items 170 and 421)

To ensure the correct application of freight charges, the shipper must use proper commodity descriptions on the bills of lading. Such descriptions must conform to those shown in the National Motor Freight Classification (STB NMF 100 Series). Appropriate abbreviated descriptions are permitted provided the NMFC item and appropriate Sub number are shown. Incomplete or improper commodity descriptions accompanied by a class rating are not acceptable forms of abbreviation and shall not determine the proper classification applicable to such commodity. Packaging types that are required for classification rating must also be shown.

If the carrier receives a bill of lading where an incomplete or improper commodity description is used, or the NMFC item number is not valid or has expired, the carrier will make every effort to classify the freight according to the information shown. In the event the carrier, in its judgment, cannot determine the proper classification rating, such commodity will be assigned a class 150 rating, and rates will be assessed on that basis. (See Notes 1 & 3)

When one or more of the articles are not accurately identified on the bill of lading, and the actual density of the articles can be determined by the carrier, the shipment will be rated at the applicable class shown in Table 1, based on the actual density of the shipment.

For commodities that are subject to classes based on the actual density or density group, shipper must show on bills of lading the actual density or density group at time of the shipment. If the actual density or density group is not shown, the charges will initially be assessed on the basis of the density subject to class 150. If there is no density subject to class 150, the next highest class will be applicable, regardless of density. Upon submission of satisfactory proof of the actual density, freight charges will be adjusted to the basis of the class applicable to such density (See Notes 2 & 3). When the actual density of the articles can be determined by the carrier, the shipment will be rated at the applicable class shown in Table 1.

For commodities in the NMFC that are designated with a classification of "0" or listed as "not taken" or "not accepted", these will be assigned a class 150 rating. When the actual density of the articles can be determined by the carrier, the shipment will be rated at the applicable class shown in Table 1.

Note 1: Upon submission of satisfactory "proof" of the actual commodity shipped and where a proper description of articles can be determined, charges will be adjusted on the basis of the proper description, NMFC item and class.

Note 2: Upon submission of satisfactory "proof" of actual density, charges will be adjusted to the basis of the class applicable to such density.

Note 3: "Proof" is described as an invoice or packing slip along with a pre-printed specification sheet or catalog page, which lists the commodity description, weight and shipping dimensions. If an invoice and packing slip are not available, then a copy of the specification sheet or catalog page information identifying the freight must correspond to an order/product number, which can also be found on the original bill of lading.

ITEM 201 **Effective: March 1, 2021**

PRECEDENCE OF PRICING PROGRAMS
(See NOTES)

1. When on shipments for which specific pricing is applicable for the shipper, consignee and/or third party (See NOTE B), the applicable pricing published specifically for the account of the payor of the freight charges will apply.

2. When on prepaid and collect third party shipments (See NOTE B), if there is no specific pricing published for the account of the third party, the pricing published specifically for the account of the shipper or consignee, based on the terms of the bill of lading, will apply if applicable.

3. When on collect shipments if there is no specific inbound pricing published for the account of the consignee, the pricing published for the account of the shipper will apply if applicable.

NOTE A: As used in this item, "Pricing," "Pricing Program" or "Specific Pricing" means any rates (other than full class rates) or charges, discounts, allowance or other means of determining final charges, published to apply for a specific account or accounts.

NOTE B: If the third party payor is a logistics company, consultant, or similar type entity that is paying freight charges for another party, the pricing published specifically for the logistics company, consultant, or other entity, or for the party they represent will apply. In absence of a specific published pricing program, the generic pricing program for the logistics company, consultant, or similar type entity, if any, will apply.

ITEM 202 **Effective: March 1, 2021**

APPLICATION OF ALLOWANCES, INCENTIVES, AND OFF-BILL PROVISIONS

The following provisions will control the application of allowances, incentives, and other off-bill provisions in pricing publications governed by this tariff unless more specific provisions are published in such pricing applications.

1. Allowances, Incentives, and Off-Bill Provisions will not apply on:
   - Accessorial Charges
   - Fuel Surcharges
   - Minimum Charges
   - Non-direct Traffic
   - Shipments subject to Volume, Truckload, Per Mile, Flat Charge or Rate Per Pallet, Spot Rate or Per Vehicle Rates
   - Shipments subject to a minimum charge for cubic capacity, volume or capacity load or exclusive use of vehicle
   - Shipments rated at the M20M or higher scale of rates
   - Square Yard Rates
   - Hourly Rates

2. A consignor or consignee that loads or unloads the carrier's trailer shall be subject to the following provisions for loading or unloading allowances:
   - The carrier will spot a trailer at the consignor's or the consignee's dock or yard. The consignor or consignee will move the trailer from its parking area to its loading/unloading platform or from its platform to its parking area.
   - Loading or unloading allowances may apply for a customer that drops their own trailer at the carrier's dock.
   - The consignor or consignee shall notify the carrier when trailer is ready for removal from their premises in accordance with the drop trailer agreement. At that time, the consignor shall provide an executed bill of lading or consignee shall provide a signed delivery receipt.
   - The loading or unloading allowance amount will be calculated based only on the billable weight. Allowances will not be paid on deficit weight.

3. Except as otherwise provided, an allowance or off-bill provision will only apply when consignor/consignee has agreed to allow the carrier to generate an automatic end of the month claim. When requested by consignor/consignee, the carrier will generate an automatic end of the month claim which will show the necessary information regarding all qualifying shipments that moved in a specific month with a total allowance amount to be paid. Such automatic claims generated by the carrier will be paid on or before the last day of the month following the month in which the service was performed.

   When specifically requested by the party performing the service the allowance, incentive or off-bill provision will be paid only upon presentation of a written statement to the carrier of the amount claimed at the points at which the allowance is applicable. Such statement must contain sufficient information to verify the application of this item. Customer filed claims must be itemized to indicate the date of shipments, carrier's freight bill number or by including with the claim, copies of the shipping order(s) or bill(s) of lading including the carrier's freight bill number and the weight of each shipment. Claims will only be paid when the claim for such allowance(s) is filed with the carrier on, or before, the last day of the month following the month in which the service was performed. Such claims will be paid within 30 days from receipt of the claim.

4. Allowances, incentives, or other off-bill provisions expressed as percentages will be computed on the net SEFL linehaul revenue after otherwise applicable discount(s) have been deducted, and will not apply on accessorial charges. In no case will the net revenue to SEFL, after the allowance or incentive is paid, be less than the published minimum charge for the customer.

5. Amounts to be paid will only apply when the freight charges are billed to and paid by the account receiving the refund. Payments will only be made after the carrier receives full payment for freight charges within 45 days of the shipment date.

6. Unless consignee or consignor tenders sufficient business to generate a minimum of a $20.00 monthly payment, SEFL will make no payment. If after 6 months no payments have been made, the allowance shall be cancelled.

ITEM 300 **Effective: March 1, 2021**

ADVANCING OR PAYING CHARGES

Unless otherwise provided, the rates and charges published in tariffs governed by this tariff do not included handling, tollage, wharfage, usage, loading or unloading charges, ferry charges, lift truck charges or any other port terminal charges at piers, wharves, warehouse or dockside terminals, and the carrier will not absorb such charges for the transportation of a shipment.

However, unless otherwise instructed by the shipper or consignee, the carrier reserves the right and may advance such charges and other charges incidental to the transportation of the shipment. Such advancements or payments together with the charges accruing under this item shall be due to the responsible party whom the freight charges of the shipment are assessed. Billing under this item may be at the time of billing of the freight charges if the advancements or payments are known; or by subsequent billing as necessary.

When charges incidental to the transportation of the shipment are to be advanced, the following handling charges will apply:

- 5.0% of the amount advanced, subject to a $50.00 minimum charge.

ITEM 345 **Effective: March 1, 2021**

ARRIVAL NOTICE AND UNDELIVERED FREIGHT

ARRIVAL NOTICE

1. Actual tender of delivery at consignee's place constitutes the notice of the arrival of a shipment.
2. If the shipment is not actually tendered for delivery, notice of arrival will be given to the consignee no later than the next business day following the arrival of the shipment.

    - The notice will be given by telephone, if convenient and practicable, or otherwise by mail. The notice, however transmitted, will specify the point of origin, the consignor and commodity, and weight of shipment.
    - If the consignee's address is unknown to the carrier, the notice will be mailed to the consignee at the post office serving the point of destination shown on the bill of lading.
    - In the case of notification by mail, the notice will be deemed to have been given (that is, received by the addressee) at 8:00 A.M. on the first business day after it was mailed.

UNDELIVERED FREIGHT

1. If freight cannot be delivered because of the consignee's refusal or inability to accept it, or because the carrier cannot locate the consignee, or if freight cannot be transported because of an error, or omission on the part of the consignor, the carrier will make a diligent effort to notify the consignor promptly that the freight is in storage and the reason therefore.
2. Undelivered shipments will be subject to applicable storage or detention charges, per Item 910.
3. On undelivered shipments, disposition instructions printed on the bill of lading, shipping order, shipping label, or container or disposition instructions issues prior to tender of delivery will not be accepted as an authority to reship, return, or reconsign a shipment or to limit storage liability.
4. When a shipment is undeliverable, including non-acceptance by consignee, the carrier will issue a traceable electronic transmission (email) to consignor or consignee.

ITEM 359 **Effective: March 1, 2021**

CHARGES FOR DOCUMENTS, FORMS, OR COPIES
(Exception of NMFC Item 360)

When the payor of freight or other lawful charges requires or requests, as a prerequisite to payment below, the charge will be $2.00 per document: (See NOTES A, B, and C)

1. The return of any part of the bill of lading or copies thereof, other than the one furnished by the shipper.
2. Copies of freight bills or statements of transportation charges in excess of the original invoice and document.
3. The preparation by the carrier of any forms requiring itemization, listing, description of single or multiple freight bills, for submittal of freight bills or statements of charges.
4. Any forms or copies of forms, other than those described in paragraphs 1 or 2 above, to be submitted with freight bills or statements of charges.
5. In addition to the $2.00 per document charge, an administrative fee of $25.00 will apply.

NOTE A: When as a prerequisite to payment, the shipper-furnished copy of the bill of lading is to be returned, it must be clearly and prominently marked by the shipper with specific instructions directing its return with the freight bill.

NOTE B: The charges set forth in this item will not apply to:

- Bank Payment Plans when documentation is limited to a deposit ticket(s) supplied by bank.

NOTE C: The provisions set forth in this item will not apply to shipments moving on United States Government Bills of Lading.

SOUTHEASTERN FREIGHT LINES

ITEM 360-5

Effective: March 1, 2021

BILLS OF LADING – CORRECTED
(See NOTE A)

1. Corrected bills of lading or other instructions to change the freight charge collection status from PREPAID to COLLECT will not be accepted after the shipment has been delivered, unless an authorized representative of the party requesting the change provides the carrier with a signed document indicating their agreement to pay all charges detailed on the freight bill. Any change in collection status will not be permitted after payment has been received.

2. A corrected bill of lading to change the original transportation contract from PREPAID to COLLECT will not be accepted if Section 7 (non-recourse clause) of the corrected bill of lading has been signed by the consignor. If the corrected bill of lading is inadvertently accepted and Section 7 has been signed, the signature will be considered invalid. The party requesting a change in collection status will guarantee payment of freight charges should the new debtor fail to pay within the prescribed credit guidelines.

3. A request to change the original freight charge collection status from collect to prepaid will require a corrected bill of lading from the shipper and the shipper must have established credit with SEFL. A request to change the collection status may be submitted by the shipper on the shipper's letterhead in lieu of a corrected bill of lading, subject to all other provisions of this item.

4. When the carrier is instructed after the shipment has been picked up to bill the freight charges to a third party, and such information is not shown on the bill of lading at time of shipment, a corrected bill of lading must be received from the responsible party to guarantee payment of charges.

5. Corrected bills of lading changing or clarifying the description, density or weight of commodities, released, declared or actual value will not be accepted without submission of documentary proof that the description, density or weight is as claimed on the corrected bill of lading. For documentary proof, if an invoice and packing slip are not available, then a copy of the specification sheet or catalog page information identifying the freight must correspond to an order/product number.

6. A request to add and apply a spot quote number to a freight bill that was not provided on the original bill of lading.

NOTE A: A charge of $32.00 in addition to all other applicable charges will be assessed against the payor of freight charges for processing such corrected bills of lading.

SOUTHEASTERN FREIGHT LINES

ITEM 360-100 **Effective: March 1, 2021**

BILLS OF LADING – STRAIGHT
CONTRACT TERMS AND CONDITIONS

Unless otherwise agreed to in writing in advance of carriage, contract terms shall be those as indicated in the carrier's bill of lading or in the National Motor Freight Classification 100 Item 365 "Uniform Bill of Lading" in effect on the date the shipment was tendered to the carrier. ONLY the carriers' officials or personnel authorized to do so by the carrier are empowered to agree to alternate contract terms and conditions and the use of an alternate bill of lading referencing such terms and conditions. Drivers employed or hired by the carrier are among those excluded from the category of authorized carrier personnel. When a bill of lading, other than the "Uniform Bill of Lading" or the carrier's bill of lading, issued by the shipper, is signed for by the carrier's driver or other unauthorized person(s), that signature ONLY acknowledges receipt of the freight and identifies the entity to deliver. It is NOT a contract for the carriage of freight. Continued use of an unauthorized bill of lading by the shipper will NOT constitute an implied acceptance by the carrier.

Reference made to tariffs or "tariffs on file" means tariffs contained in the carriers' files. Such tariffs shall be available to shipper on request to the extent that they apply to the shipper.

ITEM 365 **Effective: March 1, 2021**

BLIND SHIPMENTS

1. Prior to pickup, the carrier must receive from the requestor the "Blind Shipment Form" (http://www.sefl.com/vspdfdocs/BlindHiddenShipments.pdf) and an amended bill of lading, which should state the information to keep the shipment blind.

2. If the “Blind Shipment Form” is not received by the carrier prior to pickup, the request will be handled as a reconsignment subject to the provisions of Item 820. Provisions and charges for both blind shipment and reconsignment will apply.

3. The carrier must receive shipping instructions from the third party and be satisfied that the third party has the legal authority to control the shipment.

4. Two bills of lading are required and both must be prepaid.

5. The original bill of lading from the shipper must show the actual shipper name and address consigned to the third party in care of the carrier’s terminal serving the consignee.

6. The corrected bill of lading will identify the third party as the shipper with the shipper’s city, state, and zip code and the actual consignee name and address.

7. The party requesting the service must have established credit.

8. Section 7 of the bill of lading cannot be signed.

9. The invoice will be generated from the corrected bill of lading.

10. A charge of $100.00 will apply in conjunction with all other applicable charges and must be billed PREPAID, and paid by the party requesting the service.

11. The carrier will make a diligent effort to execute a request for blind shipment service. However, the carrier cannot ensure the confidentiality of the transaction or that such service will be provided.

SOUTHEASTERN FREIGHT LINES

ITEM 390 **Effective: March 1, 2021**

CAPACITY LOADS AND OVERFLOW

1. The terms "Loaded to Capacity" or "Capacity Load" refers to the extent to which a vehicle is loaded with freight, each term meaning:
    a. Quantity of freight which because of unusual shape or dimensions, or because of necessity for segregation from other freight, requires the entire capacity of the van trailer or pup.
    b. That quantity of freight which in the manner loaded so fills a van trailer or pup that no additional article in that shipping form tendered identical in size to the largest article in the shipment can be loaded in or on the van trailer or pup.
    c. Quantity of freight which in the manner loaded so fills a pup trailer that it occupies 20 linear feet or more or exceeds 20,000 pounds.

LOADING BY CONSIGNOR – UNLOADING BY CONSIGNEE

Rates subject to provisions that consignor is to load and/or consignee is to unload the shipment are subject to the following additional provisions:

1. At time of shipment a notation must be made on the bill of lading and shipping order that consignor is to load and/or consignee is to unload the shipment.

The complete loading and/or unloading service of the freight including the count thereof, must be performed by the shipper and/or consignee at their expense without any assistance from the carrier. The carrier's employee and power unit are to be released while loading and/or unloading is performed. At the carrier's option, the carrier's employee and power unit may remain during loading or unloading, but will render no assistance in loading or unloading.
3. (a) The complete loading service includes the counting and loading of the freight into or on the carrier's vehicle and the stowing and arranging thereof. Any temporary blocking, flooring or lining, racks, standards, strips, stakes or similar bracing, dunnage or supports, not constituting a shipping carrier, container or package, or a part of the vehicle when required to protect and make shipments secure for transportation must be furnished and installed by the shipper.
   (b) The complete unloading service means that the consignee must remove the freight from the position in which it is transported in or on the carrier's vehicle.
4. On mixed shipments when any portion of the freight is required to be loaded or unloaded by shipper and/or consignee, as a condition precedent to the application of the rate, the entire shipment must be loaded and/or unloaded and counted by the shipper or consignee, otherwise the rate will not apply and rates otherwise published will be assessed.
5. In the event the shipment is stopped-off for partial loading or partial unloading, the party or parties tendering or receiving any portion of the shipment will be subject to the requirements as to loading or unloading.
6. If the consignor or any party tendering any portion of the shipment refuses to perform the loading or the consignee or any party receiving any portion of the shipment refuses to perform the unloading, the rate will not apply and rates otherwise published will be assessed.

ITEM 579-10 **Effective: March 1, 2021**

LUMPER PROCESSING FEE – METHOD OF DETERMINING

When the carrier is required to acquire or utilize any outside service to load and/or unload freight from and/or to the carrier's vehicle, the carrier will not absorb any charges or fees accompanied with acquiring or utilizing said outside service. The carrier will be reimbursed for any expenses, charges or fees assessed by said outside services. Such expenses, charges, or fees will be prorated by weight and proportional charges will be added to the freight bills involved. In the event the outside service assesses a charge on a per bill basis, said charge will be added to the freight bill.

In addition to all other charges, a $25.00 fee for administrative purposes will apply.

Such expenses, charges, or fees will be in addition to all other lawful charges and will be assessed against the payor of the freight charges unless payment has been guaranteed to the satisfaction of the carrier by the consignor, consignee or third party.

ITEM 580 **Effective: March 1, 2021**

That portion of a shipment in excess of a stated maximum weight or legal weight limits shall be rated as a separate shipment.

ITEM 610-100 **Effective: March 1, 2021**

MINIMUM CHARGE – CUBIC CAPACITY AND DENSITY-ELIGIBLE SHIPMENTS

Any shipment which is 750 cubic feet or greater and has a density of less than six pounds per cubic foot will be subject to the provisions of this item.

SECTION 1 - RATES AND CHARGES:

Eligible shipments will be subject to a minimum charge to be determined as follows:

- Multiply the total cubic feet by 6 to determine the calculated weight to be applied to the shipment.
- Multiply the weight determined in (a) above, by the class 150 class rate (in lieu of the actual class or any specifically published FAK class) of the customer's negotiated base rates.
- Customer's published discount percentage (including 0% discount) will apply. For customers with no published discount percentage, apply a 60% discount.

SECTION 2 - CONDITIONS:

Density is based on the total cubic feet of all articles or pieces on the shipment. The density will be determined as follows:

- When for operational reasons a shipment is not moved from the original pickup trailer (at the origin service center), the density will be determined as follows:
  - Determine amount of floor space used for the length. When an odd number of articles are shipped, half of the odd articles length will be used to determine floor space.
  - To determine the width of trailer, use 96".
- When a shipment is moved from the pickup trailer to another trailer, the density will be determined in accordance with Section 8 of Item 100 in the NMF 100 series.
- When two like pieces will not fit side by side on the trailer, use 96" as the width when calculating the density.
- A vertical dimension of 96 inches or actual height whichever is greater will be used to calculate cube when the shipping unit cannot be loaded with like freight due to the following:
  - The nature of the article.
  - Packaging or lack of packaging uses; i.e., uncrated engine, open topped pallet boxes or crates.
  - Pallets are loaded in a "pyramid," "rounded off," or "topped off" (single box in centers or pallet) fashion.
  - Specific instructions by the shipper on the bill-of-lading, on the actual articles as tendered, or by the consignee to the effect that no other freight is to be loaded on top of the article.
  - The article has measurements of 50" or more in height.
- Same day multiple shipment pick-up from the same shipper, having the same consignee, will be considered as one shipment for provisions of item 610-100 to apply.
- Freight bill information: When this item is applied the carrier's freight bill will indicate both the actual weight and the calculated weight on which the charges are assessed.
- Maximum charges: The charges applied under this item shall in no case exceed those charges that would be calculated from item 390 of the tariff.
- The provisions of this item are not applicable in connection with shipment subject to:
  - Truckload rate or charges.
  - Rates which apply per vehicle used.
  - Capacity load provisions.
  - Exclusive use of vehicle provisions.
  - Shipment rated from the SEFL 562 Dimension Rating Tariff.

MIXED SHIPMENTS AND ARTICLES CLASSIFIED BY WEIGHT OR QUANTITY

(Exception to Section 3 of NMFC Item 640)

1. The bill of lading (BOL) must specify each separately classified or rated articles by class rating group and total weight of each separately-classified article.
2. If a shipment containing commodities of more than one class is inspected, and the inspection determines that the BOL information does not accurately describe those commodities and classes, the shipment will be rated per Table 1 below, based on the density of the total shipment as determined using the inspected weight and dimensions.
3. When shipments contain commodities that, according to the NMF 100 Series, have density-driven classifications within the same piece, package or shipment, the entire shipment will be rated per Table 1 below, based on the density of the total shipment.
4. When a bill of lading does not meet the requirements of NMF 100 Item 250100 such that it does not provide a NMFC item, commodity description or freight class, the shipment will be rated at the applicable class shown in Table 1 below based on the density of the total shipment.
5. In the case of density based commodities where shipper lists two or more differently classed commodities on a handling unit but the average density of the handling unit is found to be outside the ranges indicated by shipper, the handling unit will be classified in accordance to the class determined by the average density in Table 1.

PREPAYMENT OR GUARANTEE OF CHARGES

Except as provided, shipments will be accepted subject to the following provisions:

SECTION 1:

A prepaid shipment is one on which the charges for transportation service rendered at the request of the consignor, including charges for any accessorial services performed at the request of the consignor are to be paid by the shipper.

SECTION 2:

A collect shipment is one which the charges for transportation service including accessorial services rendered at the request of the consignee, or requested by the consignor for the consignee, are to be paid for by the consignee.

SECTION 3:

A shipment on which charges are to be paid by a party other than the consignor or consignee will be accepted provided that the consignor has established credit with the carrier picking up the shipment at origin and guarantees to pay the charges if the third party fails to do so. Such a shipment will not be accepted if the consignor executes Section 7 of the bill of lading.

SECTION 4:

When the party, other than consignor or consignee, fails to pay the freight charges when due, the carrier will have recourse to collect charges from consignor whether Section 7 of the bill of lading is endorsed or not.

SECTION 5:

If, in the judgement of the carrier picking-up a shipment at origin, the forced sale of the goods would not realize the total charges due at destination, the shipment must be prepaid.

SECTION 6:

If a shipment is required by Section 4 hereof or by any provision of this classification to be prepaid, it will be accepted on a collect basis if the consignor has established credit with the carrier picking-up the shipment at origin and the consignor guarantees to pay the charges if the consignee fails to do so. Such a shipment will not be accepted as a collect shipment if the consignor executes Section 7 of the bill of lading.

ITEM 817 **Effective: March 1, 2021**

PAYMENT OF FREIGHT CHARGES

1. Except as otherwise agreed upon in writing by Southeastern Freight Lines, freight charges must be paid within the 15-day credit period of billing, including Saturdays, Sundays, and legal holidays. The 15-day period will begin on the day following presentation or mailing of the freight bill.

2. When parties who undertake the payment of freight bills mail acceptable checks/money orders, or complete a successful electronic payment of freight charges, the act of mailing or electronically exchanging funds within the 15-day period shall be deemed to be payment within the 15-day period. In case of dispute as to the date of payment, the postmark shall be accepted as such date on mailed items and the date of electronic transfer will be accepted as such date on electronic items.

3. Payments not made within 15 days of presentation of the freight bill shall be considered delinquent. Pursuant to Title 49, Part 377, Section 377.203, paragraph e, item ii, notice shall be given by the carrier that failure to pay within the authorized credit period will require the carrier, before extending credit again, to determine whether the shipper will comply with the credit regulation in the future. The consignor, consignee and any third party involved in the movement shall remain liable for transportation charges incurred, with the sole exception being the non-recourse provisions of the bill of lading contract. The consignor, consignee and any third party shall be jointly and severally liable for said charges, regardless of any agreement between them with respect to the party, which may be responsible for the freight charges incurred.

4. Freight charges that are not paid within the 15-day credit period and for which Southeastern Freight Lines, Inc. acquires the use of an outside collection agency and/or attorney to effect collections will be subject to liquidated damages of twenty-five percent (25%) of the unpaid amount. Should this fee exceed the maximum allowed by state, federal, or local statute, such fee will be reduced to the maximum rate not otherwise prohibited.

5. All action or proceedings instituted by the carrier for the collection of freight charges owed by the shipper, consignor, consignee or third party involved in the movement who has failed to pay such charges within 15 days of presentation of the freight bill, where the carrier initiates a lawsuit, such suit shall be brought in a court of competent jurisdiction in the state where the debtor resides, and cause of any action or suit hereunder must be brought by the parties in the federal or state court with appropriate jurisdiction over the subject matter. The parties will not raise, and hereby waive, any defenses based on the venue, inconvenience of forum, sufficiency of service of process, and any cause of action or suit brought in the appropriate court.

7. ATTORNEYS' FEES: Should suit or arbitration be brought to enforce or interpret any part of this agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees to be fixed by the court or arbitrator (including without limitation, costs, expenses and fees on any appeal). MAXIMUM LIABILITY

1. Except as provided in paragraph 2, letter d, articles accepted for transportation shall be considered released at the value per pound per package shown in Column B, opposite the corresponding Class in COLUMN A, subject to a maximum liability of $20.00 per pound and $100,000.00 per shipment.

2. The maximum value per pound per package allowed shall be arrived at as follows:

   - Determine the actual class as provided in the governing tariff NMFC 100 or the FAK rating as set forth in shipper's published tariff item issued by SEFL.
   - Locate the applicable class in COLUMN A.
   - The maximum value per pound per package is shown in COLUMN B, opposite the corresponding class in COLUMN A.

COLUMN A	COLUMN B	COLUMN A	COLUMN B

   - The Released Value as stated in the NMFC 100 Series, which will apply for each package lost or damaged.

(continued on following page)

ITEM 848 (concluded)

MAXIMUM LIABILITY

5. The term "package" as used in this item, means any primary shipping package authorized by the provisions of individual tariffs or classification items. When a number of packages have been unitized, strapped or otherwise fastened together, or contained on pallets, platforms or skids, or have been over packed in additional complying packaging, the carrier's maximum liability will be determined by separately multiplying the weight of each individual package lost or damaged "times" the released value, and not on the basis of the weight of the total number of packages unitized, strapped or otherwise fastened together or contained on pallets, platforms or skids, or over packed in an additional complying package. Where a package contains articles subject to the provisions of this item and articles not subject to this item, the carrier's maximum liability is to be determined by multiplying the total weight of the package by the maximum value per pound shown in COLUMN B of Paragraph 2 of this item, as determined by the corresponding Actual NMFC Class or the FAK rating as set forth in shipper's published tariff item issued by SEFL as shown in COLUMN A of Paragraph 2.

6. Items described in the NMFC and shipped under RELEASED VALUE provisions will be subject to the maximum released value depending on the class listed at time of shipment. When the NMFC offers the Consignor or Consignee the option to declare an actual declared or released value on the Bill of Lading and such valuation is NOT declared by the Consignor or Consignee and the shipment is inadvertently accepted by the carrier; charges will be assessed based on the wording of the applicable NMFC item covering the shipment.

7. On shipments that are classed based on value, either actual, declared or released, and the NMFC does not advise within the item or its notes how to rate a shipment when such value is not present on the bill of lading, the Carrier will rate at the highest class provided within the item at a maximum liability not to exceed $5.00 per pound.

8. Provisions named in this item will NOT apply when the provisions of Items 848-2 and 848-10 have application.

ITEM 848-2 **Effective: March 1, 2021**

RELEASED VALUE – USED AUTO PARTS

Commodities described in Items 17800 thru 20140 of the NMFC, other than new, will be accepted for transportation only when the shipper releases the value of the property to a value not exceeding 10 cents per pound. In the event of loss and/or damage to any shipment, SEFL's liability will not exceed 10 cents per pound for the portion of a shipment actually lost or damaged. Should commodities as described in this item be inadvertently accepted for transportation, such items will be considered to be released by the shipper at a value of 10 cents per pound, per item, per package, per shipment. Failure of the consignor to declare that a commodity is "used" shall not alter the application of this item.

Not applicable on commodities named in the NMFC 100 series which provide for specific released value provisions.

SOUTHEASTERN FREIGHT LINES

ITEM 848-5 **Effective: March 1, 2021**

FULL VALUE INSURANCE COVERAGE

If customer wishes to purchase full value insurance coverage, the shipper must request this coverage in writing on the bill of lading at the time of shipment providing the invoice value of the goods. The insurance will cover 110% of the invoice value of the goods, subject to a maximum of $250,000.00 per shipment. Full Value Insurance is only applicable and can be provided on shipments that originate in direct points of SEFL.

SECTION 1 – BILL OF LADING MUST BE NOTED TO THE EFFECT:

- "Full Value Insurance Coverage Requested – Invoice Value: $_____."
- To request Full Value Insurance Coverage on a shipment with an invoice value of $35,000.00, the shipper must show the following on the bill of lading: "**Full Value Insurance Coverage Requested – Invoice Value $35,000.00"**

SEFL will assess a charge of $0.65 per $100.00 of 110% of the invoice value (as stated on the bill of lading), subject to a minimum charge of $45.00 per shipments. Charges are to be paid by the party responsible for payment of the otherwise applicable freight charges.

Example:
- Invoice value on freight bill: $35,000.00
- Amount of coverage = $35,000.00 plus 10% = $38,500.00
- Charge at $0.65 per $100.00: $38,500.00 = 385 ($100.00 units)
- 385 multiplied by $0.65 = $250.25 Full Value Insurance Coverage Fee

Insurance coverage will exclude rust, oxidation, and discoloration. This is first dollar coverage and does not exempt loss and/or damage caused by Force Majeure conditions.

SECTION 2 – GOODS EXCLUDED, GOODS/PROPERTY NOT INSURED:

Accounts, bills, deeds, notes, securities, evidences of debt, letters of credit, tickets, passports, documents, manuscripts, mechanical drawings, valuable papers, recorded or electronic data and media. This requirement can be found at SEFL.com, under Resources, Common Forms and Documents, Full Value Insurance Rug Packaging Requirement.

SECTION 3 – PERILS EXCLUDED:

In addition to the Nuclear Exclusion Clause (Clause Paramount) stated below, this policy does not insure against loss or damage caused by or resulting from: Delay, loss of market, loss of use, interruption of business, or any consequential loss. Mechanical breakdown, inherent vice or defect, wear and tear, insects, vermin or gradual deterioration. Neglect of the Assured to use all reasonable means to save and preserve the property at the time of or after any loss or damage.

SECTION 4 - NUCLEAR EXCLUSION CLAUSE/CLAUSE PARAMOUNT:

This company shall not be liable for loss, damage or expense arising directly or indirectly from any nuclear incident, reaction, radiation, or any radioactive contamination, all whether controlled or uncontrolled, occurring while said property is within the United States or arising from a source therein, and whether the loss, damage or expense be proximately or remotely caused thereby, or be in whole or part caused by, contributed to, or aggravated by the peril(s) insured against this Policy; however, subject to the foregoing and all provisions of this Policy, if this Policy insures against the peril of fire, then direct loss by fire resulting from nuclear incident, nuclear reaction, or nuclear radiation or radioactive contamination is insured by this Policy.

ITEM 848-10 **Effective: March 1, 2021**

RELEASED VALUE – USED ARTICLES

Commodities, other than new, will be accepted for transportation only when the shipper releases the value of the property to a value not exceeding 50 cents per pound. In the event of loss and/or damage to any shipment, SEFL's liability will not exceed 50 cents per pound for the portion of a shipment actually lost or damaged. Should commodities as described in this item be inadvertently accepted for transportation, such items will be considered to be released by the shipper at a value of 50 cents per pound, per item, per package, per shipment. Failure of the consignor to declare that a commodity is "used" shall not alter the application of this item.
