DCL Logistics

DCL Logistics Price Schedule

Addendum

Addendum to Agreement between JUUL Labs, Inc. ("JUUL") and DisCopyLabs, Inc. ("DCL") dated September 1, 2018. This ADDENDUM is made part of the Contract Services Agreement between JUUL and DCL dated July 1, 2017. To the extent that any of the terms or conditions contained in this ADDENDUM may contradict or conflict with any of the terms or conditions of the Agreement, it is expressly understood and agreed that the pricing contained in this addendum supersedes any and all prior pricing.

Offsite Storage and Processing at Mercury Logistics

This agreement will commence on September 1, 2018 and remain in effect until March 31, 2019.

Term

To support the objective, DCL will supply space for JUUL at Mercury Logistics at its Locust Lane facility. DCL is committed to provide JUUL 4,000 pallet locations at Mercury. Should JUUL need space beyond March 31, 2019 for some reason (examples: construction delays or other customer commitments), DCL will notify Mercury by January 31, 2019 and Mercury will provide said space for the calendar month of April 2019. If space is needed beyond April 2019, DCL will notify Mercury by February 28, 2019 for the month of May 2019, and so on (in other words, 60-day notification for 30 day extension).

Storage Charges

Pallets will be charged at a rate of $12.00 per pallet with a minimum charge of $34,448. Pallets stored would be calculated as the beginning inventory of the month plus any receipts for that month.

Example 1:
Beginning inventory on the 1st of the month = 1000 pallets
Receipts during the month = 500 pallets.
1,500 pallets X $12.00 = $18,000 for storage
In this case, the minimum charge of $34,448 would apply

Example 2:
Beginning inventory on the 1st of the month = 2000 pallets
Receipts during the month = 1,000 pallets.
3,000 pallets X $12.00 = $36,000 for storage

Example 3:
Beginning inventory on the 1st of the month = 3000 pallets
Receipts during the month = 1,500 pallets.
4,500 pallets X $12.00 = $54,000 for storage

Miscellaneous

DCL will provide security personnel as well as a minimum of 3 security cameras in the warehouse.
