cc: Shipping Damage: P.O. 60096 APAP w/Codeine

On 8/3/01 we received this order of 123 cartons on 4 skids. 5 of the cartons were crushed at receipt. The skids were double-stacked when received, and we suspect this weight was a major factor in the damage.

The delivering carrier was P & P Transport, 000012156. This is advance notice of a possible freight claim. Our receiving inspectors will decide whether to accept or reject all or part of the 5 cartons.
