843337040 8 UPS Freight 769376 CONSIGNEE REFUSED PART OF SHIPMENT; BALANCE DELIVERED one of the skids' shrink wrap was torn but not broken and the carton had slight damage Checked with the destination terminal in Brooklyn to see what condition the freight arrived into their terminal i. also asked terminal to interview the driver that delivered this to see if he has any information regarding the damage/shortage
This was returned to Warehouse on 1/21/10 227921551. The consignee noted at time of delivery that 1 carton was damaged and refused it. Also had not been notified of a shortage on this yet so I have noted your information below in the system. Driver in his 1 case is a carrier issue. The 2 cases have not been adjusted back in. On the returns log The terminal also advised that this particular customer always signs 'subject to count & inspection' and they are known to never sign anything clear, in regards to the shortage, the freight was not counted at time of delivery. 1/11/101/11/10
931836043 9 UPS Freight SPW20164 This order was refused because it had been restacked and rewrapped after shipping Omnicare refused because the product was a total mess and since it was control products it was refused. I need a detailed root cause explanation and a corrective action regarding this shipment. This was returned on 454171115 signed by jeff Martin The freight will be shrouded with cardboard going forward and it has been reinforced that nothing is to be stacked on the freight while in our trailers. Security walked the dock Security also spoke with the driver trailer was opened at the service center in Memphis, TN. This shipment arrived from XLU "wedged" against the back door and when the door was opened this one skid fell to the ground upside down. Four employees re-couped or "scooped" the skid, placed this on another skid, restacked the boxes into the outer cardboard box, and applied the blue shrink wrap.The driver remembers seeing the one box for Grenada, MS and placing this into the McKesson box. He stated that he did not look at the labels but remembers seeing the packing list assuming that this box went with the McKesson order. He stated that the seal did match when he opened the trailer.He had one box that had no labels or other identification and this one box was placed on top of one of the other McKesson skids and sent to the city loading door. The other McKesson shipments off of trailer 715-4227 went to 5960 East Shelby Dr.Con-Way next step is for the service center to contact the McKesson location at 5960 East Shelby Drive regarding the one box on top of the other shipments and also speak with the driver who delivered to the McKesson at 5960 East Shelby Drive, and ask them about the one carton overage. The missing carton has been found but there was a bottle missing from the carton so corporate security was immediately informed of this and will be conducting more interviews The carton with the missing bottle has been placed in safe keeping.
