Pax - Freight Price Schedule 07/01/2017

Benefits of Using DCL Freight Account

- Substantial discounts off carrier book rates
- Customer service for all carrier calls with regard to correct delivery of the order
- Tracking and application of carrier delivery credits for late delivery
- Receipt of undeliverable packages for customer disposition
- Easy customer reconciliation as freight charges are linked to each order
- eFactory freight reports showing freight charges by order and by carrier service
- Monthly freight service billing as opposed to weekly billing by carrier

For current carrier list rate schedules see www.fedex.com and www.ups.com.

Additional Charges

Additional freight charges above the standard transportation charges include: fuel surcharges, address corrections, insurance, residential delivery, out-of-area delivery and dimensional weight. These charges will be added to the standard transportation charge. The corresponding service level discount will be applied to the list fuel service charge. No discount is applied for other additional charges.

DCL Preferred Carriers

DCL reserves the right to substitute carriers on shipments while maintaining equivalent service and price.

---

[1] Freight discounts are subject to change upon sixty (60) days written notice. Freight is included as part of the contract and managed by DCL.

[2] For each shipment and level of service, a minimum charge is established by DCL
