Attachments:	ABC Master.xlsx; Copy of ABC July 2013 Shipping Details.xls-1.xls

Attached please find the following information:

- The first spreadsheet is an estimated gross value of sales for ABC by state for the next 12 months
  - I used September as my base since this was the first month of Lidoderm Generic and the move of Wal-Greens from ABC. I took September gross sales and multiple this number by 12.
  - Please see the tab – summary by state
- The 2nd spreadsheet is a freight analysis from UPS. This data is the cost of freight with UPS for ABC shipments for July 2013.

I also have additional information that I can share with the team that was done back 2008. Kevin McCaughan had some information around a freight project that may be helpful. Unfortunately all I have are hard copies that we can review at our meeting on Friday.

Please let me know if you need any other information.
Thanks,

Lisa
