Hi Ian,

On PO702121 we had a shortage and it appears that someone could have gone through this order during transit. We were short 2 of the Basic Kit 8 Pack - Slate - CANADA, 1 of the pods 8 Pack (4 Pods / Pack) - CAN (Mango) 22.4 mL / 5% nic, 6 of the pods 8 Pack (4 Pods / Pack) - CAN (Mint) 22.4 mL / 5% nic, and 2 of the pods 8 Pack (4 Pods / Pack) - CANADA
(Tobacco). See attachments and photos below.

Please let me know how you would like to proceed.

Best Regards,

David

Hi Joel,

I appreciate the pictures and information that is very unfortunate what happened. I am going to be reaching out to them, but could you please provide an OS&D? We do still need that before I contact them.

Much appreciated!

David

Good afternoon,

This Juul Labs P.O. came in this morning in horrible condition. This P.O. came with the wrong paperwork as well. The second time in a row by Juul, the previous one was PO670515. Which was received yesterday in good condition.

Through Netsuite I found this was PO702121 that arrived this morning. Below you will see what should of had, but received instead.

48 - JL-BK-CA - 46 units received - 2 units

48 - JL-CHRG-CA - 48 units received

18 - JL-PODS-CA-COOLC-5.0% - 18 units received

18 - JL-PODS-CA-FRT-5.0% - 18 units received

60 - JL-PODS-CA-MANGO-5.0% - 59 units received - 1 unit

54 - JL-PODS-CA-MNT-5.0% - 48 units received - 6 units

18 - JL-PODS-CA-TBC-5.0% - 16 units received - 2 units

6 - JL-PODS-CA-VANILLA-5.0% - 6 units received

In total we are missing 11 units in total from this order. On the B.O.L. there was no indication of box count for this order. It only said 1 skid. Can we let Juul know that maybe they should use security tape for their Juul cases. Anyone can have clear tape. Someone clearly went though this P.O. during transit.

Documents are attached and pictures will be attached shortly. If you have any questions please let me know. Also let me know if you would like me to receive this in with these discrepancies.

Thanks,
