Bambi-

Can you please copy me on anything like this when you send to Lori/Jerry? We need to notify DEA of any loss within 24 hours and if for some reason Jerry is out or doesn't get it out right away, our compliance will be jeopardized. Thanks Bambi, appreciate it!

All,

This morning we received a control shipment from Qualitest with one cases of Hydrocodone item 550941 short two bottles. It looks like the Gaylord box and the case had both been cut where the case was and torn open just enough to retrieve the product. Attached are pictures of the Gaylord container and the case that was shorted. The shrink wrap was intact and didn't seem to be cut open. The shortage was notated on the bill and a copy stapled to our paperwork. I signed for 38 cases 910 pieces.

912 912 EA 550-741 HYDROCOD/APAP 3891 21

Jesse,

I set the Gaylord container aside in case you wanted to see it.

Thanks,
